

Robert R. Harrison is an Adjunct Assistant Professor at the University of Utah S.J. Quinney College of Law. He teaches courses in health care law, health care regulation, regulatory law, and professional ethics, and directs the Colloquium in Law and Biomedical Sciences. Following undergraduate studies at the University of Richmond, he earned a Master of Health Administration from the Medical College of Virginia at Virginia Commonwealth University and graduated from the Saint Louis University School of Law with an Honors Certificate in Health Law from the Center for Health Law Studies. He was a Fellow at the Beazley Institute for Health Law and Policy at Loyola University Chicago, earning a Master of Laws in Health Law with a concentration in regulatory compliance, and subsequently earned an Advanced Certificate in Bioethics and Health Policy and a doctorate in bioethics from the Loyola University Chicago Stritch School of Medicine.

Dr. Harrison served for seven years on the faculty of the Medical College of Virginia/Virginia Commonwealth University School of Medicine, was Senior Counsel at the Johns Hopkins Health System, and most recently taught ethics at the University of Texas Rio Grande School of Medicine, where he held an appointment as Clinical Assistant Professor in the Department of Internal Medicine. He is a past Chair of the Health Law Section of the Federal Bar Association, a past Vice Chair of the Medical Staff, Credentialing and Peer Review Practice Group at the American Health Law Association, a Fellow of the American College of Healthcare Executives, and a member of the Governing Board and the Executive Committee of the American Academy of Legal Medicine.

Dr. Harrison has published widely in professional and academic journals and delivered presentations at more than fifty regional and national conferences on law and medicine. His academic interests focus on issues at the intersection of regulatory law and ethics in human subjects research, ethics in medical professionalism, and the ethics of international clinical research. He is currently at work on a book about competing conceptions of autonomy and personhood underlying informed consent to clinical research participation.
